User Panel:

After the Login or register Page user will get straightly to the home page of the user panel.
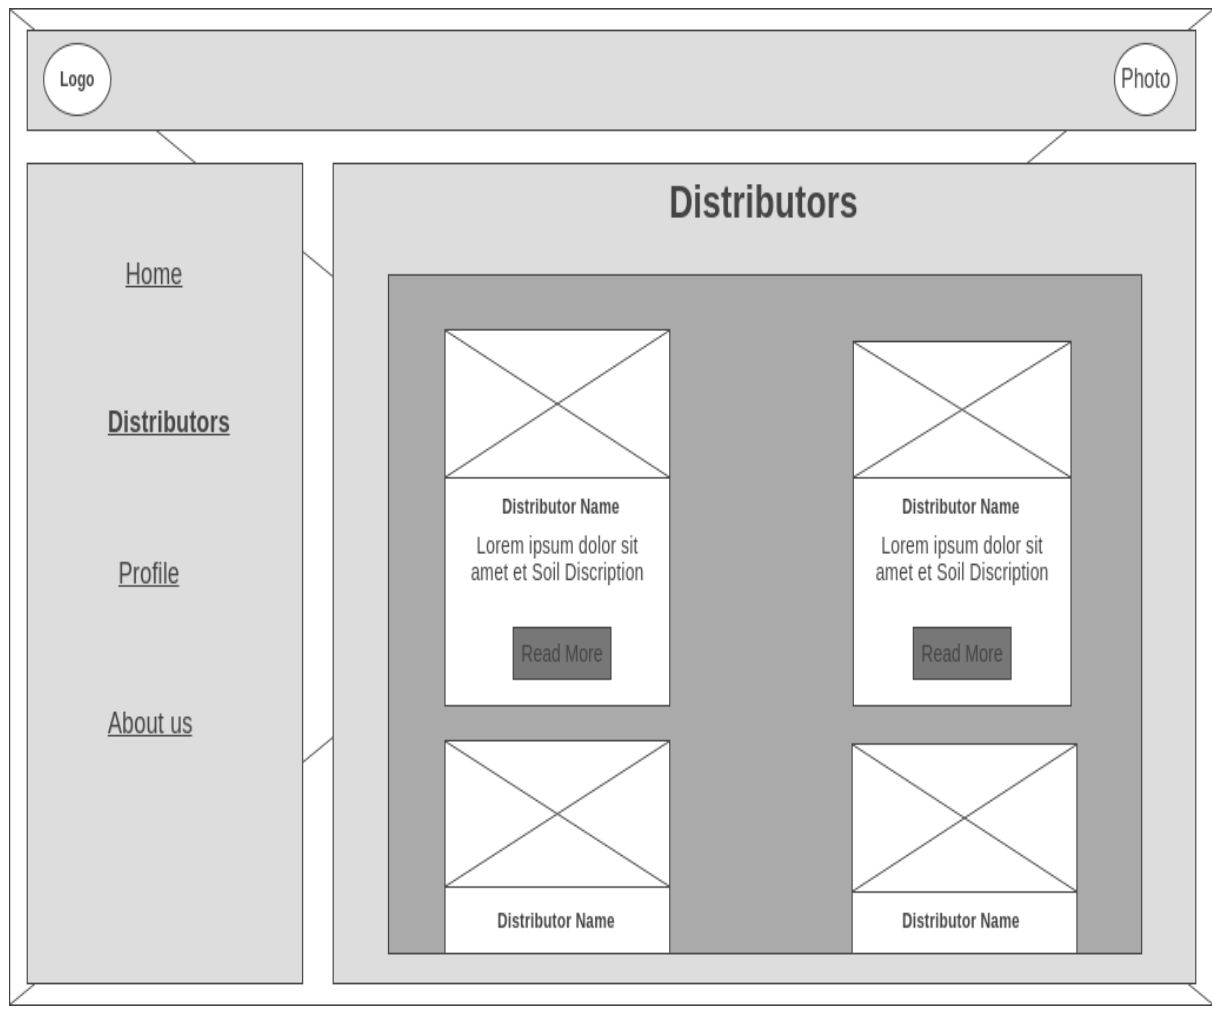

Home Page:

Home page of the user panel of The soil farming agent displays the list of the soils which are uploaded by the admin.

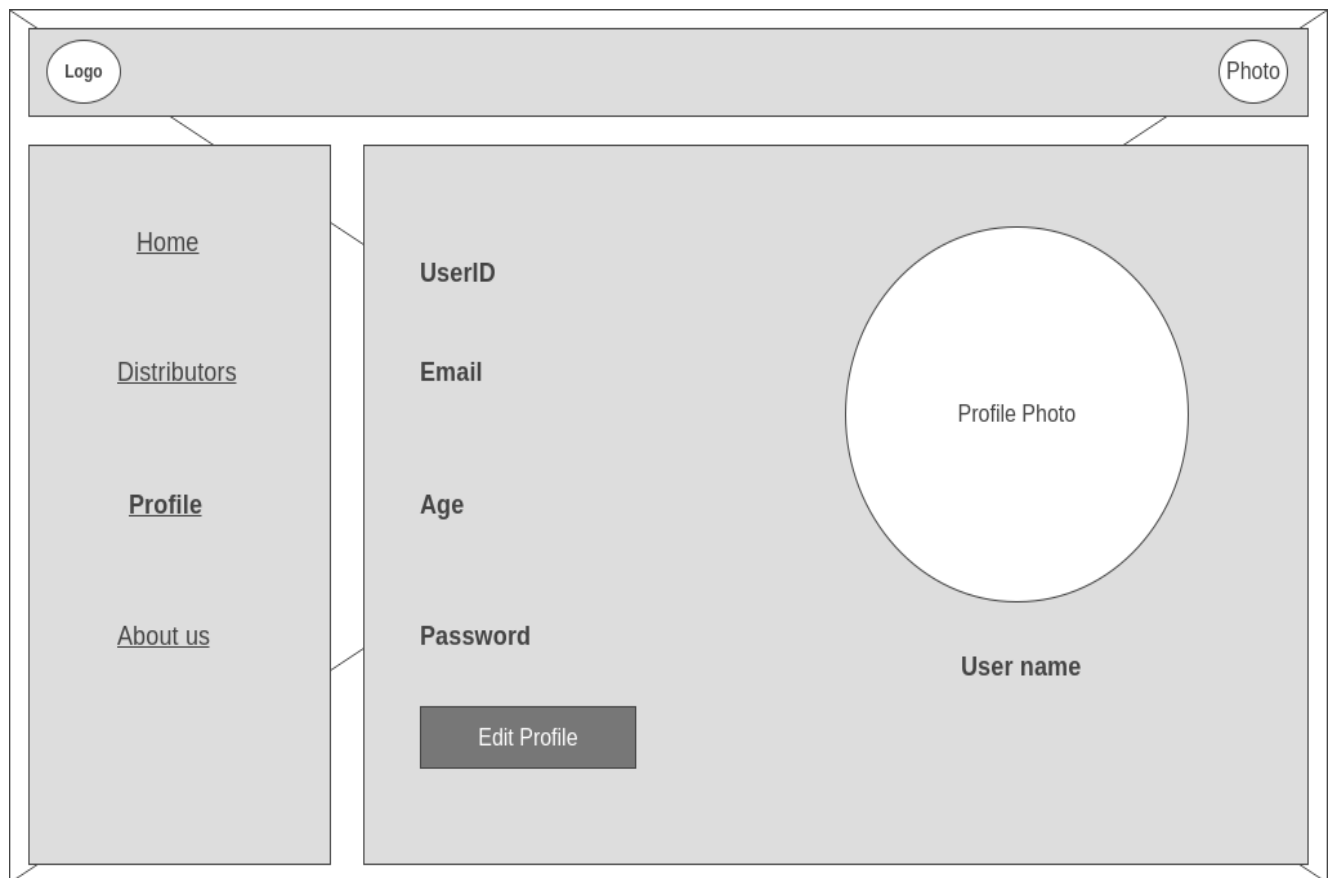

In the soil lists we provide soil cards of different soils each card has an button of READ MORE by clicking on this button user can open this card and this card holds all information of the soil in it.
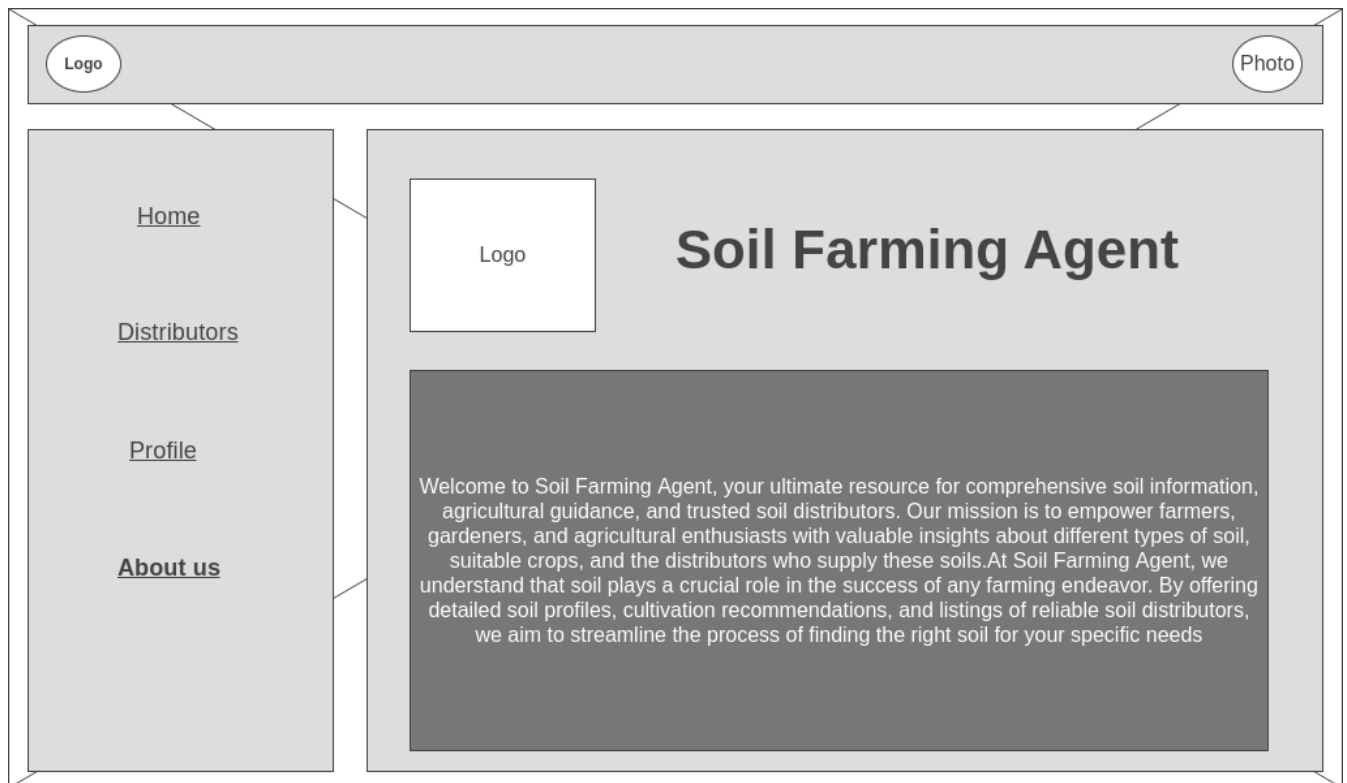

Distributor Page:

Distributors page is also same as Home page but on this page we provide Distributors list instead of soil list.
